Better People, Better Business®

Automotive Quality System: ISO/TS 16949

Awareness for general operational personnel

This session provides a brief overview of the global automotive quality system ISO/TS 16949. The content is delivered through a presentation. (The duration of the session is typically one to two hours, depending on content required.)

Course Location:	On-Site at your premises
Course Duration:	One or Two Hours depending on content required
No. of Delegates:	15 delegates maximum per session

Target Audience

The course is appropriate for all personnel whose activities will be within the scope of the ISO/TS 16949 system.

Agenda

Start TBA

Description of ISO/TS 16949

Impact on functions within the organisation

End of Session (TBA)

Course Objectives

The key objective is ensuring that participants are aware of ISO/TS 16949, to enable them to support the implementation of the system in their organisation.

By the end of the session, a participant will:

- Be aware of the aims, and importance of the ISO/TS 16949 Automotive Quality System
- Understand how it affects their work process.

(Note. Customisation of the session content may be required to ensure relevance to participants.)
