

Novice Drivers (5 Day Course)

We offer training that meets all relevant statutory requirements (HASAWA 1974 etc) & those laid down in the Health & Safety Commission approved code of practice ACOP 'Rider Operated Lift Truck Operator Training'.

On successful completion of the course you will be entered in the operators register and candidates are then rewarded with a nationally recognised certificate.

Course will include the following: -

- Full Training to ITTSAR or RTITB Services Standards
- Full Certification
- Written Instruction
- Training Reports / Records of Instruction
- Register of Authorised Drivers
- ITTSAR or RTITB Driver Certification

Course Location: On-Site

Course Duration: 5 Full Days, 10.00am-4.00pm (dates to suit you)

No. of Delegates: 3 Delegates Max (under current ACOP)

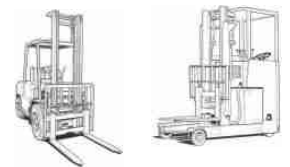

This is an intensive course on the efficient and safe use of the forklift truck for novices, or operators with little experience. This course conforms to the standards that are laid down by ITTSAR/RTITB which consists of a sufficient mixture of practical and theory instruction.

Theory:

- The need to train and statutory requirements
- Rated capacities-stability and instability
- Operating safety code
- Suitable safety films
- Multi choice theory test

Practical:

- Introduction to the truck
- Control familiarisation
- Daily checks/refuelling procedures
- Battery charging and maintenance
- Driving and steering procedures
- Load weight assessment
- Load handling
- Stacking and de-stacking procedures
- Bulk stacking/de-stacking
- Stacking/destacking cup post pallets
- Handling awkward loads
- Vehicle loading/unloading
- Practical skill test

Testing and certification

During the course the operators will undertake a theory test and on conclusion of their training a practical pre use check of the machine followed by a practical skills test.
