Better People, Better Business®

Edge Protection Installation

Course Location:	On-Site at your premises
Course Duration:	3 Days NOVICE (dates to suit you) 1 Day EXPERIENCED Installer Assessment
No. of Delegates:	8 delegates max

Who Should Attend

The course is aimed at:

Personnel who are involved in erecting and dismantling of Edge Protection Scaffolding

The Objectives of the Course

At the end of the course trainees should have an understanding of:

- the current legislation
- employer and employee responsibilities
- the inspection procedure
- avoiding risks
- reducing injuries and correct erecting and dismantling techniques

Course Delivery Method

Lecture/Classroom, practical exercises and knowledge assessment

Course Content:

Legislation and codes of practice, Edge Protection components, safe working practices, hazards, inspection practical erecting and dismantling of Edge Protection.

PPE Required:

Protective footwear, Harnesses, lanyards, suitable head protection, suitable clothing, tools for erecting & dismantling the edge protection and gloves for the practical session.

Delegate Experience Required:

Experienced installers require a company letter confirming 3 years in the industry and 2 years minimum installing edge protection.

For **novices** a working knowledge of scaffolding would be an advantage but is not essential. All delegates **MUST** be physically fit and able to carry out any practical during the service. Before delegates use any other equipment proof of training must be given to the instructor.

In-House requirements:

Suitable training room with table & chairs for each delegate. Exposed edges for the practical as required. Correct type of scaffold to be used when erecting Edge Protection, powered access if required.
