Fire Safety for Site Managers

Who should attend? Construction site managers, supervisors amd fire marshals/wardens who have responsibility for the management of fire safety risks on construction sites including the implementation of fire risk assessments/site fire safety plans.

Course Location: On-Site at your premises
Course Duration: 3 Hours (course date & course time to suit you)
No. of Delegates: 12 delegates max

Course Aims and Objectives

At the end of the course delegates will have an awareness and understanding of:

- The legal requirements with regard to fire safety on construction sites
- The roles and responsibilities of the Designer, Principal Contractor, Responsible Person, Fire Wardens/Marshals and individuals
- The content of the Fie Safety Plan
- Theory of fire, including common causes of fire and types of fire spread
- General site fire precautions (fire points, fire alarm, fire fighting equipment)
- Site fire precautions (measures to reduce risk and safe working practices)
- Means of escape and evacuation
- Safe use of fire extinguishers with hands-on practical

Our fire safety trainer is a professionally qualified Fire Officer with a wealth of fire fighting and fire safety experience. This is invaluable when advising organisations on compliance issues, preparing staff for discussions with the local fire brigade and to add realism to all our fire safety courses.

Delegates Receive:
Fire Training Certificate, Course notes and course materials
