Safe Use & Inspection of Fall Rescue Kit

Course Location: On-Site at your premises

Course Duration: 1 Half Day 3Hrs approx

No. of Delegates: 10 delegates max

Who Should Attend

The course is aimed at:

Personnel working at height who may be required to aid the safe rescue of personnel who have had a fall arrested by fall arrest equipment as stated in their site rescue plan.

Course Content:

- Legislation
- Employers and employees responsibilities
- Equipment familiarisation, selection and inspection criteria
- Theory for rescue of a casualty who's fall has been arrested

Course Delivery Method

Lecture/Classroom, practical involving appropriate selection of harnesses/lanyards/Gotcha Kit and pre and post inspection techniques of your rescue kit.

PPE Required:

Protective footwear, suitable head protection, suitable clothing, harness and gloves.

Delegate Experience Required:

A working knowledge of harnesses would be an advantage but is not essential.

In-House requirements:

Suitable training room with table & chairs for each delegate, Laptop Projector & Screen/blank wall/white board (tutor will bring his own laptop and a projector if you do not have a projector).
